

SURYO

WHO WE ARE

Launched in July 2018, Suryo is a collaboration between the founder, Luci and a small group of traditional craftswomen in Yogyakarta.

Upon returning to Yogyakarta where Luci spent a lot of her childhood, she was charmed by the magic and colour of the city and captivated by the strong presence of creativity and craftsmanship. The beauty and vibrancy of Indonesia is captured in each and every Suryo accessory, something made possible by magical women, with artisinal skill.

FOR THE PERSON WHO LIKES TO SPARKLE EVERY SINGLE DAY.

THE SURYO FAMILY

Using traditional articial elements from Java, Suryo creates fun and timeless designs for women, with a unique twist. We're proud to operate as a female-focussed business led by a strong community of craftswomen. By supporting the community, these women are able to gain financial independence within a society which traditionally is Male-driven in Indonesia.

Every Suryo bag is hand-crocheted using colourful metallic threads and sparkle in their own way. Imagined in Amsterdam, they're traditonally crafted by female Javanese artisans to not only highlight their unique talent, but to promote their craft, culture, and heritage. We incorporate traditional techniques like batik, crochet, and beading into our designs. Each bag takes approximately 17 hours to make by hand, making each unique to the next.

The Suryo range also includes other accessories such as hairbands and earrings which are made with the same love and meticulous attention to detail.

We do not think in seasons or collections. Suryo is an ever-growing range, as we continue our infinite quest to source the best sparkling materials in the world.

SURYO

Suryo is dedicated to the joy in everyday opulence. Embellished with pearls, feathers and beads, they take on the air of modern-day keepsake—something to cherish forever.

The brand was launched in 2019, when designer Luci Hargreaves harnessed the inspiration she gathered from her hometown of Yogyakarta. Spurred by the creativity and craftsmanship she saw everywhere, she started working with a group of female artisans and a fruitful collaboration was born.

The bags, which take 17 hours to make by hand, incorporate elements of weaving and crochet, carrying a long legacy of craftsmanship. The women who make them were taught these skills by their mothers, who were taught by their mothers.

Both unconventional and feminine, the bags and accessories act as an exclamation mark to every outfit. For those who seek something unique, they possess undeniable appeal.

SURYO

A woman with dark hair, wearing a black and white patterned sleeveless dress and a yellow geometric bag, is standing in front of a large, ornate tapestry. The tapestry features a landscape scene with trees and a path. The woman is looking towards the camera with a slight smile.
