

LACHOIX<sup>PT</sup>

LINE SHEET & LOOKBOOK  
AUTUMN/WINTER 25

## ABOUT US

Lachoix is a brand that offers an elegant, yet comfortable footwear that integrates effortlessly into a contemporary woman's wardrobe.

Founded in 2018 by Fátima Carvalho, with the aim of creating a brand that was more than just a high-quality product but a lifestyle brand that redefines the essentials of woman's footwear, providing an elegant flat shoe with an androgynous inspiration. Loafers and slippers in noble materials like velvet and fur. Lachoix is a direct-to-consumer brand defining a new era of luxury.

Based in Lisbon, all products are proudly manufactured and designed in Portugal, known for its quality and experience.

**Materials:** Our leathers are by-products of the food industry. We do not use nor support the use of leather and/or fur from wild animals or from the exploitation of animals only for the use of their skin.

**Production:** We work with small family-owned factories in the north of Portugal. We value their craft and knowledge but also their investment in technology.

*"I felt the need to design shoes that could adapt to the everyday routine of a contemporary woman."*

by Fátima Carvalho
