Collection Introduction

The Mohair Scarves Collection brings together a selection of handcrafted scarves made in Ezcaray, La Rioja (Spain), where traditional techniques meet a contemporary sensibility. Woven by hand using soft mohair yarns, each piece is designed to add warmth, texture, and character to everyday looks.

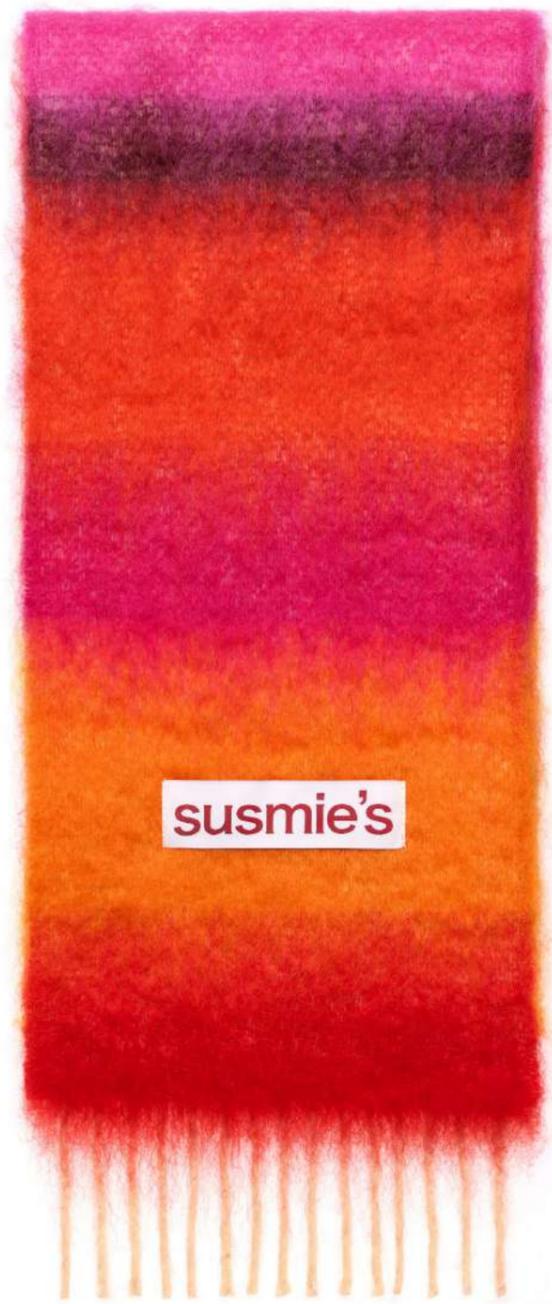

Over the years, this collection has become one of our best sellers, valued for its quality, versatility, and consistent performance. These scarves are defined by their vibrant, artisanal colors and timeless appeal. Easy to wear and endlessly adaptable, they suit different styles and personalities, making them a natural staple in any wardrobe.

As we like to say, buying one of these scarves is the beginning of a long-term relationship.
