

FALL/WINTER 2026  
A COLLECTION BY SUSMIES COLLECTION

susmie's

### Collection Introduction

FW26 brings together the pieces that shape our universe this season.

Outerwear opens the showroom as our favorite accessories capsule and one of the most iconic parts of the brand. After the great success of last year, we introduce our new puffers for this season. Bold and warm, they are designed to make winter feel lighter and more fun.

Our Timeless icons remain at the heart of Susmies. Sweaters and all-season best sellers that stay with us year after year, effortless, familiar, and always right.

The Clothing Collection represents our evolving core. Designed with extra care, improved quality, and a desire to explore new textures and materials, these pieces reflect where Susmies is today and where it is heading next.

The Atelier Collection is our most expressive side. Created in limited units for those drawn to more elaborate patterns and a fantasy-inspired take on trends, these designs are crafted with intention and a playful spirit.
