LINE SHEET & LOOKBOOK

AUTUMN/WINTER 26

ABOUT US

Lachoix is a brand that offers an elegant, yet comfortable footwear that integrates effortlessly into a contemporary woman's wardrobe.

Founded in 2018 by Fátima Carvalho, with the aim of creating a brand that was more than just a high-quality product but a lifestyle brand that redefines the essentials of woman's footwear, providing an elegant flat shoe with an androgynous inspiration. Loafers and slippers in noble materials like velvet and fur. Lachoix is a direct-to-consumer brand defining a new era of luxury.

Based in Lisbon, all products are proudly manufactured and designed in Portugal, known for its quality and experience.

Materials: Our leathers are by-products of the food industry. We do not use nor support the use of leather and/or fur from wild animals or from the exploitation of animals only for the use of their skin.

Production: We work with small family-owned factories in the north of Portugal. We value their craft and knowledge but also their investment in technology.

"I felt the need to design shoes that could adapt to the everyday routine of a contemporary woman."

by Fátima Carvalho
