Frett

Our Story

Founded in 2016, Frett is a female-led knitwear studio rooted in textile expertise. Working with carefully sourced natural materials and fully-fashioned knit techniques, we create timeless, modular essentials defined by refined details, thoughtful structure, and enduring quality. The brand follows a slow-made approach, producing in limited quantities and responsibly manufacturing in family-run factories across the EU.

Materials

The yarns we use are sourced twice a year from Pitti Filati, working with mainly Italian suppliers. Our collections are composed of various blends, focusing on natural fibres and their amazing properties: breathability, superb drape and handle, biodegradability, anti-bacterial and sweat-wicking properties and more.
